

Mohan Raj M

B.Tech Computer Science and Business Systems (CSBS) | 3rd Year

Tamil Nadu, India | V.S.B Engineering College | GitHub: <https://github.com/mohan3307>

ABOUT ME

Motivated Computer Science and Business Systems student with strong communication, teamwork, problem-solving, and time-management skills. Passionate about software development, low-code systems, and bridging technical engineering with enterprise business operations.

EDUCATION

V.S.B Engineering College, Tamil Nadu

B.Tech - Computer Science and Business Systems (CSBS) | 2024 - 2028 | Currently pursuing 3rd Year

INTERNSHIP EXPERIENCE

Pega Internship Project

[Currently Ongoing]

Role: Enterprise Application Development & Business Process Automation (BPA)

- Building enterprise workflow architectures, case lifecycles, rule resolution, and data transforms.
- Gaining hands-on industrial practice in enterprise low-code systems and business process automation.

Infosys Springboard Internship

[Completed]

Project: Crypto Portfolio Manager

- Engineered a cryptocurrency asset portfolio tracking system with real-time analytics and summaries.
- Handled structured data pipelines, automated portfolio metrics, performance calculation, and reporting.
- Collaborated closely within team sprints focusing on agile delivery, testing, and system reliability.

SKILLS & COMPETENCIES

Technical Skills: Python (Basic), Java (Foundation), Database Fundamentals, IoT Sensors, Git & GitHub

Office Productivity: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

Soft Skills: Communication, Teamwork & Collaboration, Problem Solving, Time Management, Adaptability

Mohan Raj M - Projects & Verified Certifications

PROJECTS (All Uploaded & Verified on GitHub: github.com/mohan3307)

1. Crypto Portfolio Manager

Stack: Python, DB Fundamentals, Analytics

- Cryptocurrency tracking engine providing asset valuation, portfolio analytics, and automated reporting.

Repo: <https://github.com/mohan3307/Crypto-Portfolio-Manager>

2. AttendEdge - Student Attendance Monitoring & Analytics

- Full-stack college attendance system with role-based dashboards (Admin/Faculty/Student) & batch roster logging.

- Longitudinal analytics engine detecting at-risk attendance thresholds with instant visual alerts.

Stack: React (Vite), Node.js, Express, SQLite | Repo: [github.com/mohan3307/...attendance-monitoring](https://github.com/mohan3307/attendance-monitoring)

3. Smart Community Health & Early Warning System

- Public health sensor telemetry platform monitoring water quality and predicting water-borne disease outbreaks.

- Real-time sensor threshold alerts, automated contamination notifications, and geospatial risk mapping.

Stack: Web Systems, IoT Telemetry, Sensor Analytics | Repo: [github.com/mohan3307/...water-borne-diseases](https://github.com/mohan3307/water-borne-diseases)

4. Voice-Controlled Gaming Tools for Enhanced Learning

- Gamified educational platform utilizing Web Speech API for hands-free voice coding sandboxes & quiz challenges.

- Real-time multiplayer peer competition, interactive badges, quest trees, and live learning telemetry.

Stack: React.js, TypeScript, Node.js, Socket.IO, Web Speech API | Repo: [github.com/mohan3307/...gaming-tools](https://github.com/mohan3307/gaming-tools)

5. AegisResponse - Smart Ambulance Allocation & Hospital Routing

- Emergency triage dispatch platform matching patient trauma severity with ICU/trauma bed capacities.

- Live paramedic transit telemetry, 'Golden Hour' timeline monitoring, and dynamic hospital routing.

Stack: Geospatial Routing, Full-Stack Telemetry | Repo: [github.com/mohan3307/...ambulance-allocation](https://github.com/mohan3307/ambulance-allocation)

VERIFIED INDUSTRY CERTIFICATIONS

1. Crypto Portfolio Manager 6.0

- Infosys Springboard Project Completion

Credential: https://drive.google.com/file/d/1mbTqsOaohIPDAHmf7799F5nx_HiTpsoW/view

2. Python Foundation

- Programming & Algorithmic Core Logic

Credential: <https://drive.google.com/file/d/14-gyQyoxGuEcVp-OJ0Ofa-xTWuLWTqNa/view>

3. Java Foundation Certificate

- Object-Oriented Programming (OOP) & Architectures

Credential: https://drive.google.com/file/d/1uRQedH5jAiWvlgB-_e17clquVSX8bsIM/view

4. Introduction to IoT

- Connected Smart Sensors & Wireless Telemetry

Credential: <https://drive.google.com/file/d/1oMsGdQzun1NAuBCRxzIFfXgCDNu-CXID/view>

5. Business Marketing (Tech Focus)

- Computer Science & Business Systems (CSBS) Alignment

Credential: https://drive.google.com/file/d/1NVY1dHYs9d-bNRPw_4jtpLJaUehzNgG2/view
